

Application for Dust Control on Gravel Roads in Osceola County Iowa

Name of Applicant _____

Address _____

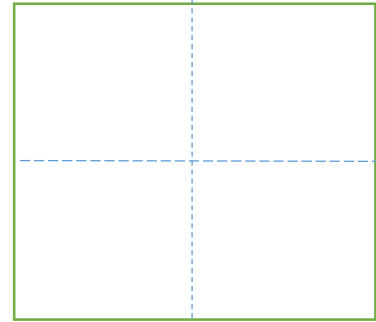

Telephone Number _____ Email Address _____

Location: Section No. _____ Township _____ N Range _____ W

Township Name: _____

Length of Dust Control Treatment _____ feet

Starting point of application: _____ to _____

Work to be done by (name of Contractor) _____

Address _____

Telephone Number _____ Email Address _____

Material to be used: _____

The application and maintenance of chemicals or other products on gravel surfaced roads to control dust shall be by permit only and in accordance with the following specifications and conditions

1. Dust control products may be applied only by an approved contractor.
2. The application rate shall be determined by the contractor. Any or all claims for damages to vehicles as a result of the applied dust control product shall be borne by the person or persons applying the dust control product
3. The county Engineer's office shall be notified 2 working days in advance of the dust control product being applied so that the roadway may be properly shaped.
4. Osceola County reserves the right to rework the treated area and maintain it as loose granular surface if the roadway surface becomes unacceptable to the County. The County Engineer's judgment shall be the sole determining factor on reworking treated areas to a loose granular surface.
5. The permit shall expire on October 1, 2013, so the treated area can be worked prior to winter.
6. The contractor's material, application rate, and performance shall be subject to applicant-contractor agreement.
